TPMS – Tire Pressure Monitoring System Sensors and Service Kits

More safety and comfort, less fuel consumption

Tire pressure monitoring systems help maximize fuel savings and tire life. Plus they help to maintain stopping performance and handling, thereby making them a valuable safety system.

Our replacement parts for tire pressure monitoring systems (TPMS) include everything technicians need to service TPMS-equipped

tires – from complete sensor assemblies to service kits including valve cores, valve nuts, seals, seal washers, and valve caps.
